No. 46.

THE 23RD OCTOBER, 1922.

(*In Circulation*).

The Hon'ble the Vice-Chancellor proposed that the Honorary Degree of Doctor of Law be conferred on Professor James Wilford Garner, M.A., Ph.D., Professor of Political Science and International Law in the University of Illinois, and Tagore Professor of Law in the University of Calcutta, on the ground that he is, by reason of eminent position and attainments, a fit and proper person to receive such degree.

RESOLVED—

That the Syndicate do recommend to the Senate that the Honorary Degree of Doctor of Law be conferred on Professor James Wilford Garner, M.A., Ph.D., Professor of Political Science and International Law in the University of Illinois, and Tagore Professor of Law in the University of Calcutta, on the ground that he is, in their opinion, by reason of eminent position and attainments, a fit and proper person to receive such degree.

Professor James Wilford Garner, M.A., Ph.D., has been Head of the Department and Professor of Political Science and International Law in the State University of Illinois for over sixteen years. He is the author of "Introduction to Political Science," "The Government of the United States", "Essays in Southern History and Politics," "History of the United States" 5 Vols. (in collaboration with Senator Lodge) and "Civil Government for Indian Students" (in collaboration with Sir William Marris). His work on "International Law and the World War," published in 2 Vols. in 1920, in the series organized by Professor Oppenheim and known as "Contributions to International Law and Diplomacy," has placed his name in the front rank of authorities on the subject. The annotated version of the History of French Public Law by Prof. Brissaud, contributed by Prof. Garner to the "Continental Legal History Series" is a work of recognized value. Professor Garner was the Editor-in-Chief, in 1911 and 1912, of the first two Volumes of the Journal of the American Institute of Criminal Law and Criminology. His contributions to leading American and European Periodicals on Political Science and International Law are too numerous for enumeration. In 1920, on the invitation of the University of Paris, Prof. Garner delivered

in French two courses of lectures before the New International School of International Law founded by Fauchille, Lapradelle and Alvarez; the first series was on "American Political Ideas and Institutions"; the second series was on "Problems of Neutrality during the World War." He also lectured in the provincial Universities of France as Harvard University Lecturer on the Hyde Foundation. Prof. Garner has further delivered courses of lectures at Cambridge, Brussels and Ghent on the invitation of the respective Universities.

The complete manuscript of the lectures on the subject of the "Development of International Law in the twentieth century" has already been received and the following syllabus gives some indication of the extent and value of the work:

Lecture I—Recent and present tendencies in the development of International Law.

Lecture II—Development of the Conventional Law of War; the Hague Conventions.

Lecture III—Development of the Conventional Law of Maritime Warfare; the Declaration of London.

Lecture IV—Interpretation and application of International Law in recent Wars; (i) The Anglo-Boer War; (ii) the Russo-Japanese War.

Lecture V—Interpretation and application of International Law in recent Wars; (iii) The Turko-Italian War; (iv) The Balkan Wars of 1913 and 1914.

Lectures VI and VII—Interpretation and application of International Law during the World War.

Extract from the recommendations made by Dr. Norman Walker as a result of his recent investigation of the training in midwifery afforded at Indian Universities.

Unexpectedly I found Calcutta the most difficult problem. Like Bombay, it suffers from a plethora of students and the number of available cases is small.

The Eden Hospital, which I visited on February 27th, 1922, is the Midwifery Department of the Calcutta University. It is well equipped, and contains forty beds for obstetrics and forty for gynecology, and an extension of 62 beds is planned and seemed to me, from what I was told, to be nearer accomplishment than at some of the places we had visited. There is an excellent detached section for septic cases, of which there are many, and an existing ward, which was provided by a pious donor for sick children and has not for some reason been applied to that purpose, is now immediately available and will add then additional beds to the existing number. The addition of wards is not quite so important as with us, for in India there are no waiting lists. Col. Leicester, the Professor of Midwifery, informed me that cases coming up were always admitted at once. This is easy in India because of the free ventilation which the weather permits, and overcrowding is consequently less important than it is with us. There are altogether about 1200 cases annually, but Col. Leicester frankly confessed that only a little over 600 of these were available for instruction purposes for the 135 students he has in the midwifery year. The arrangements for making full use of the cases are however exceptionally good. Calcutta is the only University which has an officer of the Indian Medical Service as assistant to the Professor. This post is at present filled by Capt. P. Fleming Gow, a graduate of St. Andrews, who, before he joined the service, was House Surgeon with Professor Kynoch in Dundee. He adds energy and efficiency to the administration. He furnished me with a report, giving full details of their teaching methods.

The students are on duty for three months for midwifery instructions. The staff consists of the Professor, the Resident Surgeon (Capt. Fleming Gow), a Registrar, who is an Indian graduate of experience, a House Surgeon, and an Assistant House Surgeon. A great deal of attention is given to tutorial instruction of students. In addition, to the Course of Systematic Lectures given by the Professor, the Resident Surgeon gives 20 demonstrations in Practical Midwifery every term, and a list was supplied to me of the students by name, showing

the dates on which they attended the four cases which they are required to conduct personally and the 16 others which they are required to witness.

The University authorities have made application for the appointment of a clinical whole-time Professor in Midwifery. If midwifery can be efficiently taught without a specified number of personally conducted cases, I think one is justified in saying that it is efficiently taught in the Eden Hospital.

The arrangements for the teaching of gynaecology are excellent. In his sixth year every student is required to attend the out-patient department, which is open six days a week. Only three students attend each day, so the opportunities of practising vaginal examinations are ample. The Professor gives a daily clinic in the Gynaecological Wards, and each student must do three weeks' duty as a Clinical Clerk with charge of three beds.

I visited on February 27, 1922, the hospital attached to the Carmichael Medical College. The College is affiliated to Calcutta University, and therefore comes under the same regulations. It is comparatively new, and is a medical college conducted entirely by Indians for Indians. The Professor of Midwifery is Dr. Kedarnath Das, C.I.E. He is a distinguished graduate of Calcutta University, and was Resident Surgeon in the Eden Hospital after he graduated. I was not favourably impressed by the hospital. It did not fulfil one's ideas of the requisite cleanliness which is surely so essential in the teaching of midwifery, and the sanitary arrangements were unsatisfactory. Otherwise the arrangements as detailed to me seemed good.

As before stated, the College is new and there are at present only 19 students in the year in which midwifery is taken. As 109 cases were available last year, the proportion is about the same as in the Eden Hospital, and further their students at this stage of their curriculum are all residents in hostels immediately adjacent to the hospital. There is an Associate Professor, a House Surgeon and Tutor, and the beginnings of a museum and library. There were a good many instruments of various ages in show-cases, and numerous wax models illustrated the facts of pregnancy. I saw only one dummy, and it was not so new as the rest of the exhibits.

The problem of Carmichael College is a difficult one, because though they have only 19 students now, they are aiming at an entry of 100 annually, and it is difficult to see how that number can be efficiently taught. Dr. Das is sanguine that the

additional beds they expect to have 30 from April onwards—will supply them with a larger number of cases.

On the afternoon of February 28, 1922, I met the Faculty of Medicine with the Vice-Chancellor, Sir Ashutosh Mukerjee, in the Chair. Nearly all the numbers of the Faculty were present, and we had a very useful meeting. There was little unintelligent criticism, and the Vice-Chancellor and the Principal of the Medical College, Col. Deare, were both very helpful. While very properly maintaining in argument that mere numbers of cases were not essential, they recognised that their numbers must somehow be increased, and they will take up the matter seriously and at once. There is a probability that something of an extern department may be arranged, but unfortunately the Medical Officer of health for the City, Dr. Crake, who was present, was suffering severely from neuralgia, and was unable to take as helpful a part as he no doubt would have done.

Madras is nearer Calcutta than any of the other centres concerned, but it does not seem reasonably possible that it could do anything to help Calcutta as well as the two Northern Medical Colleges. It was mentioned that in the Ceylon Medical College, Colombo, there was an abundant supply of cases, and if the worst comes to the worst, after all the sea journey between Calcutta and Colombo is a simple one.

No one will question the desirability of Calcutta increasing considerably the amount of material available for the instruction of its students in practical midwifery, but I am satisfied that those in authority there are in earnest in their desire to do so, that the rest of their teaching is very good, and I shall recommend the council to recognise their degree for the present."

RESOLVED—

That the correspondence be laid before the Faculty of Medicine, and that copies of it be sent to the Heads of the Calcutta Medical College and the Carmichael Medical College, Belgachia.

12. Read the following letter :—

From S. W. Goode, Esquire, I. C. S., Secretary to the Government of Bengal Education Department, Education Branch, to the Registrar, University of Calcutta. No. 179 T. Edn. The Hon. Mr. P. C. Mitter, C. I. E. Minister in charge. Darjeeling, the 26th September. 1922.

SIR,

In continuation of my letter No. 1296 Edn. dated the 4th July 1922, I am directed to forward, for the information of the Vice-Chancellor and the Senate, a copy of a letter from the Government of India, Department of Education and Health No. 1009, dated the 22nd August, 1922, regarding the Imperial grant for the Minto Professorship of Economics in the University of Calcutta. I am to add that under a misapprehension a grant of Rs. 13,000 was sanctioned for the same purpose from Provincial revenues in my letter No. 1475, Edn., dated the 22nd July, 1922 and orders about the utilisation of the amount will follow.

From M. S. D. Butler, Esq., C.B., C.I.D., C.B.O., C., B.E., I.C.S., Secretary to the Government of India, Department of Education and Health (Education) to the Secretary to the Government of Bengal, Education Department, dated Simla, the 22nd August, 1922.

Grant for the Minto Professorship of Economics in the University of Calcutta.

In continuation of this Department letter No. 598, dated the 22nd May 1922, I am directed to forward a copy of a letter from the Registrar, University of Calcutta, No. A 53, dated the 1st August, 1922, on the above subject. The Registrar should not have addressed the Government of India direct, and the Government of India will take no action until they are addressed by the Bengal Government.

Copy of a letter No. A53, dated the 1st/2nd August, 1922, from the Registrar, University of Calcutta, to the Secretary to the Government of India, Department of Education and Health.

With reference to your letter No. 598 dated the 22nd May, 1922, addressed to the Secretary to the Government of Bengal, Education Department, a copy of which was forwarded to me by the Government of Bengal, I am directed to inform you that on receipt of the information that the Legislative Assembly had sanctioned the grant of Rs. 13,000 for the current year, for the Minto Professorship of Economics in this University, I drew from the Accountant General, Central Revenues, a sum of Rs. 3,250 being the grant for the first quarter of 1922-23. Subsequently a communication was received from the Government of Bengal, sanctioning among other grants, a grant of Rs. 13,000 for the Minto Professorship of Economics. A bill was accordingly sent to the Accountant General, Bengal, for the total grants payable to this University during the current financial year.

I am now directed to address you on the necessity of retaining the amount already drawn from the Accountant General, Central Revenues, and of drawing the remainder of the grant or at least a further sum of Rs. 7,750 i.e., a total grant of Rs. 11,000 which is still due from the Government of India. In this connection I am to refer to your letter No. 137, dated the 6th February, 1920 in which the sanction for the payment of Rs. 2,000 only for the year 1919-20 was communicated to me. When the grant of Rs. 13,000 for the Minto Professorship was originally sanctioned, it was contemplated that after paying the Professor at the rate of Rs. 1,000 per mensem, the balance of Rs. 1,000 would be sufficient to meet the cost of printing the Professor's lectures. The Government of India are aware that for sometime the Professor (Mr. C. J. Hamilton) had to be paid at the rate of Rs. 1,250 per mensem. This excess amount could only be paid out of the annual surplus of Rs. 1,000. Arrangements will have to be made shortly for printing the lectures of the present Professor and it is found that the cost of printing

now will be more than what was contemplated when the grant was originally sanctioned.

I am to request you therefore to move the Government of India to allow the University to retain the amount already drawn, and to draw the remainder of the grant during the current year.

ORDERED—

To be recorded.

13. The Registrar reported that, pursuant to the direction given at a previous meeting of the Syndicate, the following letter had been addressed to the Government of Bengal on the "Rules of Examinations" issued by the Dacca Secondary and Intermediate Board for their examinations :—

J. C. GHOSH, Esq., M.A.,

Registrar, Calcutta University,

To

THE SECRETARY TO THE GOVERNMENT OF
BENGAL, EDUCATION DEPARTMENT.

Dated Senate House, Calcutta, the 13th October, 1922.

SIR,

I am directed by the Hon'ble the Vice-Chancellor and the Syndicate to forward herewith a copy of the "Rules of Examination" which were issued by the Dacca Secondary and Intermediate Board to the examiners who conducted its recent examinations, and to invite attention to the concluding provision of paragraph 4 which runs as follows :

"The percentage of passes should, as far as possible, reach the average level of Dacca in recent years."

Paragraph 2 provides, that in drawing up the question papers the standard of the examinations of the Calcutta University must be strictly adhered to. Paragraph 4 provides that in examining the answer papers the standard of examination should be neither higher nor lower than that of the Calcutta University, or, in the case of the Islamic examinations, than that of the Education Department adopted in recent

years. To these directions no exception can reasonably be taken, and sudden change of standard is to be deprecated. But the direction that the percentage of passes should, as far as possible, reach the average level of Dacca in recent years for those examinations is, in the opinion of the Hon'ble the Vice-Chancellor and the Syndicate, open to grave objection. The percentage of passes at an examination does not depend solely upon the standard of examination. The standard may remain fairly uniform, yet the percentage of passes may largely vary. Assuming that the standard remains constant, the percentage of passes must depend upon the preparation of the candidates, as also upon their attainments. Again, if we confine our attention to a single institution, it is clear that if all the circumstances remain invariable, the percentage of successful candidates may be made to vary from year to year by the exercise of more or less care in the selection of candidates to be presented at the examination. When the percentage of passes at an examination is thus dependant upon a complex set of circumstances, it is not proper to instruct the examiners to examine the answer papers in such a way as to make the percentage of passes reach what is called an average level. It is important to bear in mind that the percentage of passes varies in the case of different institutions and even in the case of the same institution from year to year. This is well illustrated in the case of the schools and colleges within the jurisdiction of the present Board during the five years from 1917-1921.

The Hon'ble the Vice-Chancellor and the Syndicate are not able to appreciate how the examiners in each individual subject can mark the answer papers allotted to them in such a manner that the ultimate result of the examination may reach what is called the average level of Dacca in recent years—unless, indeed, the instruction is interpreted to signify that as many of the candidates should be let through as possible. The gravity of the situation is intensified when we find that rule 7 invests the Examination Committee with apparently unlimited authority to alter the results, submitted by the examiners, in order to attain the desired object.

The Hon'ble the Vice-Chancellor and the Syndicate have been obliged to address the Government on the subject in as much as under section 7 of Chapter XVI of the University Regulations, they have to deal with applications from candidates who have been successful at the examinations held by the Dacca Secondary and Intermediate Board for admission into the affiliated colleges of this University. If the examinations held by the Board are

conducted on the lines indicated in the concluding provision of rule 4, read with rule 7, mentioned above, the Hon'ble the Vice-Chancellor and the Syndicate must seriously consider whether the certificates given by the Board should be accepted or not.

I have the honour to be,

SIR,

Your most obedient servant,

J. C. GHOSH,

Registrar.

APPENDIX

RULES OF EXAMINATION

1. The Paper Setter after setting the paper shall show it to the Moderator and they shall in consultation make any alterations they think necessary and the Moderator shall forward the paper in its final form to the Secretary to the Board. If the Moderator is living in Dacca he should hand in the paper personally to the Secretary at his office ; otherwise he should send it by post, registered and insured, addressing the Secretary *by name*. The questions shall be written on paper to be supplied by the Secretary.

2. In setting and moderating a paper it should be carefully borne in mind that this year the Board is simply carrying on the work of the Calcutta University. Under normal circumstances the candidates who take the Examinations of the Board should have sat for other examinations for which they were preparing. Therefore *the standards of those examinations must be strictly adhered to* in drawing up the question papers.

3. The questions should be fairly distributed over the whole course. Alternative questions should be given.

4. When there are more than one Examiner on a paper they shall meet together on the day of

the Examination with the Paper Setter, if possible, and draw up in writing a system of marking and report it to the Secretary to the Board. Examiners shall examine 10 papers out of every 30 together in order to make sure that uniformity of standard is maintained. They should also bear in mind that the standard of examination should be neither higher nor lower than that of the Calcutta University or, in the case of the Islamic Examinations, than that of the Education Department adopted in recent years; and the percentage of passes should, as far as possible, reach the average level of Dacca in recent years for those Examinations.

5. The time allowed shall be 100 papers a week and marks shall be brought in by weekly instalments together with the answer books. Results should be kept strictly confidential.

6. If an Examiner is unable for any reason to carry on his work duly, the Examination Committee may appoint another in his place.

7. If the Examination Committee, on the receipt of the tabulated marks, think that the standards of past years in Dacca town have not been adhered to, they shall take such further steps as they may think necessary to secure that result.

8. Papers of candidates who have failed in one subject only shall be re-examined without altering the standard of examination.

I have the honour to acknowledge the receipt of a set of books published by the University of Calcutta during the years 1909 to 1921, which you have been so good as to address to the Librarian, Kiel University. We thank you most cordially for this magnificent gift which is so very welcome just now in the time of the greatest distress of our country when so many valuable manuscripts have to remain unpublished for want of funds, whereas formerly our book-production used to excel considerably that of England together with France and the United States of America. We notice with joyful amazement what large amount of excellent work has been done recently at your University and congratulate you on your good luck of being guided in your efforts by a truly great man. Be assured that any further sign of life of your University, with which you might favour us will meet with the same appreciation as the present liberal gift for which we feel so deeply obliged to you.

RESOLVED—

That the provisional recognition of the school be extended up to 31st December, 1923, with permission to present candidates at the Matriculation Examination in 1924, and that a copy of the report be forwarded to the authorities of the school with the intimation that the defects noticed therein should be removed at an early date.

44. Read a letter from the S. D. O.-President, Parbatipur *Patitpabani H. E. School* (provisionally recognised up to the 31st December, 1922). in the District of Midnapur, stating that, on reconsideration, the Committee of the school, which is going to be soon re-constituted, unreservedly submits to the decision of the Syndicate desiring it to pay to Babu Nagendranath Sarkar, late Head Master of the School, the balance of his dues amounting to Rs. 100, and requesting that the subsequent decision of the Syndicate declining to extend to the school the privilege of recognition beyond December, 1922, may be rescinded with orders to remit the sum of Rs. 100 kept deposited in the University Office to Babu Nagendranath Sarkar in clearance of his dues.

Note :—Babu Nagendranath Sarkar, M.A., late Head Master of the above school, having reported non-payment of his dues by the authorities of the School, the Syndicate ordered the latter to settle the claims within a prescribed time under penalty, in the event of failure to do so, of withdrawal of recognition from the school. The Secretary, in forwarding an amount of Rs. 100 as a deposit pending final decision of the case, requested revision of the orders of the Syndicate and, as an alternative prayer, permission to appeal to the Bengal Government against the orders of the Syndicate. The Syndicate considered the letter and ordered as follows :—

“That in view of the attitude taken by the school authorities the Syndicate have decided not to extend the recognition of the school after December, 1922.”

The deposit amount (Rs. 100) is now held over to the credit of the school in the University Accounts.

RESOLVED—

That the recognition of the school be continued, and that the sum of Rs. 100 deposited in the University be paid to Babu Nagendranath Sarkar.

45. Read a letter from the D.P.I., Assam, stating with regard to the resolution of a meeting of the Managing Committee of the *Nazira Aided High School*, (permanently recognised) deciding to ask the Head Master, Sibsagar Government High School, to set questions for the next test examination of the school, protested against by three members of the School Committee, that in view of the recent history of the school, the Committee were well advised to make strenuous endeavours to bring about an improvement, and that they were in right, having lost confidence in the Head Master, to obtain evidence in regard to his adequacy or inadequacy by having the school examinations conducted by an outsider. He is, however, of opinion that the most satisfactory course for the authorities of the school would have been to have reported their wishes to the Inspector of schools and asked him to make arrangements.

The D. P. I. is of opinion that it is undesirable, that where machinery is provided locally for settlement of differences of this kind, they should become subject-matter for discussion at headquarters either in Calcutta or in Shillong.

A copy of the resolution referred to above, together with a copy of the protest lodged against it, was under orders of the Syndicate, dated the 1st August, 1922, forwarded to the D. P. I., Assam, for favour of a report.

VIENNA,

The 21st July, 1922

To

DR. PAUL BRUHL,
CALCUTTA.

Dear Sir,

My best thank for your letter dated the 29th June, 1922.

The price for our moss Herbarium is one Hundred Pound Sterling. We have had an offer of 500 dollars from America; the party who has offered this amount is ready to pay the freight from here to America. The Moss Herbarium is of great scientific value, because it consists nearly entirely of original specimens identified by well-known Bryologists of former times and also because it has been thoroughly worked over lately by the great living authority on Mosses—Julius Baumgartner. We shall be very thankful to you for defraying the cost of transit to India, as in present circumstances it would be impossible for us to pay for freight.

You have no idea how sad our fate is at the present time

Yours very truly,

(DR.) HANS NEUMAYER,

*General Secretary.
Zoological-Botanical Society, Vienna.*

VIENNA,

The 20th September, 1922.

Dear Sir,

At the request of the Members of the Zoological-Botanical Society I thank you for your esteemed letter dated the 23rd August, 1922.

We are ready to let you have our Moss Herbarium at the price of £ 100. The freight will probably amount to £ 3 sterling. We shall insure the goods; the insurance will amount to 2 per cent. of the value of the consignment, so that freight and insurance will amount to £ 5 sterling. The number of specimens amounts to at least 12000. The herbarium will be forwarded in cases with soldered tin lining and will therefore be protected from attacks of insects.

Please be good enough to pay in Pound Sterling, as payment in Kronen would mean an immense loss to us.

Kindly convey our respectful greetings to the Vice-Chancellor of your University.

Yours truly,

HANS NEUMAYER,

for the Zoological-Botanical Society of Vienna.

35, Baliganj Circular Road, Calcutta.

The 28th October, 1922.

Dear Sir Asutosh,

I enclose herewith, as promised, a translation of two letters received by me from the General Secretary of the Zoological-Botanical Society of Vienna.

The first of my two letters referred to in the correspondence contained in reply an inquiry as to the price of the Herbarium, which I had read in a Botanical Journal was for sale. The second letter of mine contained a request for a statement as to the number of specimens and as to details regarding packing and freight. The moss flora of most parts of India and more particularly of the greater part of the Himalaya is practically unexplored.

The possession of the Vienna Herbarium will practically make the Calcutta University a centre of Indian bryological research.

Yours very sincerely,
PAUL BRUHL.

The Registrar reported that under orders of the Hon'ble the Vice-Chancellor a sum of £ 100 out of the grant for the Botany Department sanctioned in the Budget Estimates had been advanced to Professor P. Bühl for purchase of Moss Herbarium from Vienna.

To

THE UNIVERSITY OF CALCUTTA,

THE CANTERBURY COLLEGE

SENDS

ITS MOST CORDIAL CONGRATULATION.

When we consider the antiquity, reputation and magnitude of Universities flourishing in other parts of the World, we should perhaps be afraid that, in sending you a letter of this kind, we should present the appearance of boys (youths) courting undue familiarity with their seniors, if we did not remember that in everything a beginning has to be made, and that acquaintance with one another's studies is as a bond of affection.

Therefore, being about to celebrate the semi-centenary festival of our College next year, on the thirteenth day of the month of May and two following days, we venture to request of you that, from your full staff of professors, you send one to us as your representative to join us in the celebration of our festival.

But if the vast extent of journey intervening stands in the way of any of yourselves responding to this invitation, perhaps you may be able to delegate some one of your graduates resident in this part of the world, and we shall be glad to have him present at our festival.

In any case, be assured of this that if you are able to delegate any one to share in our festivity, we will receive him as our guest with the utmost kindness.

Written at Christ House on the 12th of August, 1922.

(Signed)—HENRY D. ACLAND,
President of Council.

Read also a letter from the Director of Public Instruction, Bengal, forwarding copy of a report on the *Indus H. E. School* (provisionally recognised up to 31st December, 1922).

RESOLVED—

21. Read a letter from the D.P.I., Bengal, forwarding copy of a report on the *Chaudagram Ilazi Jafarali H. E. School* (unrecognised) in the District of Tippera.

Read also a representation, signed by 21 gentlemen, inhabitants of the village Batisa and others, protesting on behalf of the Batisa High English School (provisionally recognised) against the establishment of a High School at Chaudagram, situated at a distance of only 2 miles on the ground that the recognition of the school will be detrimental to the interests of the Batisa School. It is alleged that the Chaudagram School, with only three classes, attended by 20 or 25 pupils, was dragging a miserable existence till the sudden visit of the Offg. District Inspector of Schools, immediately before the Pujah Holidays.

RESOLVED—

That provisional recognition for one year with effect from January, 1923, be granted to the school with permission to present candidates at the Matriculation Examination in 1924, and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at an early date.

23. Read a letter from the D. P. I., Bengal, forwarding copy of a report on the *Maliara H. E. School* (provisionally recognised up to 31st December, 1922) in the District of Bankura.

RESOLVED—

Read also a letter from the Secretary of the School praying for its permanent recognition.

RESOLVED—

That the provisional recognition of the school be extended up to 31st December, 1923, with permission to present candidates at the Matriculation Examination in 1924 and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at an early date.

25. Read a letter from the D.P.I., Bengal, forwarding copy of an inspection report on the *Sarmahal Panihat H. E. School*, (unrecognised) in the district of Barisal together with a copy of letter No. 620 dated the 23rd September, 1922, from the Inspector of Schools, Dacca Division, enclosing the report.

Read also a letter from the *Secretary, Sarmahal Panihat H. E. School*, forwarding copy of an inspection report recorded by the same officer whose report (a separate one) is now forwarded by the D.P.I., with marginal notes as 'to the action taken or is proposed to be taken by the authorities of the school to remedy the defects mentioned therein. With regard to the nearness of the site of the school to that of the Siddhakati School it is stated in the said report that the Inspecting officer made a careful enquiry at Siddhakati to find out if the Sarmahal School was a menace to the old school and the figures supplied by the Secretary and the Head Master of the Siddhakati School show that, though the new school would undoubtedly do some injury to it, yet the amount of injury would not be anything like the magnitude of the loss inflicted by the manpasa school and came to the conclusion that the new school at Sarmahal might be allowed, so far as the question of unhealthy rivalry with a well established school was concerned.

The Secretary states that the Committee has already advertised for one final Madrassa passed Maulvi.

RESOLVED—

That provisional recognition for one year be granted to the school with effect from January, 1923, with permission to present candidates at the Matriculation Examination in 1924, and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at an early date.

26. Read a letter from the D. P. I., Bengal, forwarding copy of a report on the inspection of the *Manpasa K. M. S. Union Institution* (unrecognised) in the District of Barisal, together with a copy of letter no. 619, dated the 23rd September, 1922, from the Inspector of schools, Dacca Division, enclosing the report.

Read also a letter from the Joint Secretary, K. M. S. Union Institution, Manpasa, stating that (1) arrangements have been made to deposit Rs. 3000 at Barisal (2) on behalf of the school for utilization in case of emergency, such as the failure to realize the monthly subscriptions promised by the promoters of the school, (2) necessary steps have been taken to appoint a *Munshi* and (3) library is being improved every month. The Joint Secretary further states that in view of the difficulties of journey through Katcha road experienced by students living in the interior to attend the school at Siddhakati the inhabitants of several villages have selected the place (Manpasa) and started the school at a sacrifice.

A map of the whole area is submitted.

[N. B.—A letter from the Secretary, Siddhakati J. P. Institution, taking exception to the establishment of the rival school at Manpasa received in this office, was under orders of the Syndicate dated 26th May, 1922, forwarded along with the application for recognition of the school to the D. P. I., Bengal, for favour of a report.]

Read also a letter from the Secretary, Manpasa K. M. S. Institution, stating that a sum of Rs. 3,000 has been deposited with the Barisal Rindan Samity on behalf of the School, and enclosing 10 original testimonials including one given by the Secretary, Siddhakati H. E. School, to the Head Master at about the time of his leaving the school which it is stated will clearly meet the objections about him raised in the inspection report.

It is further stated that the Manpasa School site occupies the central position and is convenient to all the three Villages concerned. This site, it is stated, was selected at a general meeting of the members of all these villages including Sarmahal which sent three members to the School Committee. It is also

stated that in the visitor's book the 2nd Inspector of Schools had to record that "Manpasa has an infinitely better site and surroundings than Sarmahal. The building is superior. The roll number is larger." The original Pass book, issued by the Rindan Samiti Limited, of Barisal showing that Rs. 3,000 have been deposited in favour of the school is submitted.

RESOLVED—

That provisional recognition for one year with effect from January, 1923 be granted to the school, with permission to present candidates at the Matriculation Examination in 1924, and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at an early date

27. Read a letter from the Director of Public Instruction, Bengal, forwarding copy of a report of inspection on the *Suri Beni Madhab Institution* (provisionally recognised up to 1922), in the District of Birbhum.

Read also an application from the Secretary to the above school, praying for continuance of recognition of the school beyond 1922.

RESOLVED—

That the provisional recognition of the school be extended by two year's *i.e.*, up to 31st December, 1924, with permission to present candidates at the Matriculation Examination in 1924 to 1925, and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at an early date.

28. Read a letter from Maulvi Yakub Ali, late Head Master, Rajarampur English H. E. School (District Dinajpur), complaining against the authorities of the school for nonpayment of his dues, amounting to Rs. 73-11-9 together with a letter from the Secretary of the School, offering his observations on the same.

N. B.—In this office letter no. 1279/s dated 13th September, 1922, a copy of the above complaint was forwarded to the Secretary for observations. The Secretary, in his letter no. 70 dated 20th September, 1922, stated that the dues would be paid after the Puja vacation. After the vacation, however, the Secretary in another letter states that the complainant would be paid his dues whenever he will have money at his disposal.

ORDERED—

That the authorities of the school be directed to pay Maulvi Yakub Ali his dues at once.

29. A letter from Babu Upendrakumar Gangopadhyaya, Secretary, Autshahi R. N. H. E. School (permanently recognised) in the District of Dacca, stating, in reference to this

office letter No. s/ $\frac{5729}{6}$ dated $\frac{27}{31}$. 5. 22, that (1) the existence

of two rival Committees of management of the school is only a myth (2) there is only one Committee—the one duly elected in a general public meeting on 17th November, 1921, strictly *in accordance with the rules of election, in force* (3) the Committee alleged to have been formed by the founders' heirs has no representative character and as such, is no Committee at all and (4) that, to effect an amicable settlement as ordered by the Syndicate, his Committee approached the founder's heirs and offered their terms which were to the effect that the *latter would have 3 members in the Committee, provided they vested the school and its belongings in the Committee by a registered instrument but these terms were refused.*

Also a letter from Babu Mahendranath Banerjee, Officiating Secretary to the other Committee of the School, detailing the circumstances under which the two rival Committees came into being and stating that (1) the other side as represented by the Committee to which Babu U. K. Gangopadhyaya is the Secretary, have been all along trying to overlook the interest of the proprietors—they had, at one time, even issued a printed notice asking for public subscription for the school and changing its name from Autshahi Radhanath H. E. School into "Autshahi H. E. School" without the knowledge of the proprietors.

(2) Their Committee is indeed "*led by certain public gentlemen*" because it has no guardian or a parent of a student of the school in it and the electoral rules themselves are peculiar, and it seems to be a system deliberately adopted to exclude those who do not belong to a party and (3) strenuous efforts were made by the proprietors to come to a settlement and *that they were even ready to make over the school with all its belongings to a Committee in case 4 members were taken* in that body from the proprietors' side, the situation in which the proprietors have been placed requiring that they should at least have four members in the Committee to look after their interest and to see that the school is not destroyed on account of never-ending party-feelings and quarrels—but there has been no settlement.

It is prayed that pressure may be put upon the other side to agree to the terms offered by the proprietors or otherwise the Syndicate may be pleased to approve the Committee formed at the proprietor's instance.

N. B.—It is also stated by Babu U. K. Gangopadhyaya that he and his Committee are prepared to come to any reasonable settlement with the founder's heirs provided the maintenance and continuance of the school are safeguarded and the founders' heirs are compelled to make over the school and its property to the Committee by a registered instrument that shall never be revoked and will stand good for all time to come.

[Two representations having been received in respect of the constitution of two Managing Committees of the school, copies of the same were, by order the Syndicate, dated 31st March, 1922, forwarded to the D. P. I., Bengal, for report. The D. P. I.'s report in this connection was considered by the Syndicate at their meeting held on 26th May, 1922 by whose orders a copy of the said report was forwarded in this office letter

No. s/ $\frac{5728-29}{6}$ dated $\frac{27}{31}$. 5.22, to each of the rival parties and

they were informed that if they did not come to an amicable settlement and report the same to the Syndicate within three months the Syndicate would proceed to consider whether recognition would not be withdrawn from the school. Subsequently, at the request of Babu M. N. Banerjee, further time was granted to the parties to come to an amicable settlement.]

ORDERED—

That the Secretaries to the two Committees be directed to send two representatives of each side to meet a committee of the Syndicate with necessary papers.

30. Read a letter from the D. P. I., Bengal, forwarding a report of inspection on the *Doman H. E. School* (provisionally recognised up to 1922), in the District of Rangpore.

Read also an application from the Secretary to the above school, praying for an *extension of recognition* of the school.

RESOLVED—

That the provisional recognition of the school be extended up to 31st December, 1923, with permission to present candidates at the Matriculation Examination in 1924, and that a copy of the report be forwarded to the authorities of the school, with the intimation that the defects noticed therein should be removed at once and the funds of the school forthwith placed in a Savings Bank.

31. Read a letter from the Mead Master, Palong H.E. School (in the District of Faridpur), forwarding an application for sanction to the migration to this University, for purpose of admission into the Matriculation class of the above School, as

also for condonation of break in the period of studies of Rajendrakumar Ghosh, an unsuccessful student at the last Matriculation Examination of the Dacca University, who has to migrate to this University owing to the transfer of his guardian from Dacca.

The requisite letter of permission is submitted.

RESOLVED—

That the application be granted.

32. Read an application, recommended by the Prefect, St. Xavier's College, Calcutta, from *P. S. Gopal Rao*, who, after passing the S. S. L. C. Examination of Madras in 1919 with English, Telugu Composition, Elementary Mathematics, Physics and Chemistry as his subjects, failed at the I.A. Examination of the Madras University in 1921, offering English, Telugu, Physics, Chemistry and Natural Science as his subjects, praying that his provisional admission into the 2nd-year I.Sc. Class of the aforesaid College with English, Telugu, Physics, Chemistry and Botany as the combination of his subjects, attending lectures on the last named subject in the Indian Association for the cultivation of Science, may be sanctioned with a view to enabling him to continue his studies in this University.

The applicant has attained the requisite age and submits the usual letter of permission from the Registrar of the Madras University.

RESOLVED—

That the admission of the student into the 2nd-year I.Sc. Class of the College be sanctioned on condition that his admission to the I.Sc. Examination will be cancelled unless he passes the next Matriculation Examination in a Classical Language.

33. No. G
38 *Dated 8th November 1922.*

To

THE SECRETARY TO THE GOVERNMENT OF BENGAL, EDUCATION DEPARTMENT,

With reference to your letter No. 168 T. Edn., dated the 25th of September, 1922, on the subject of increased contribution to the Calcutta University on account of the Calcutta Mess Scheme, I am directed to forward to Government statements shewing the actual details of the net total deficit of Rs. 10,744 at the end of the academical year 1921-22 as also the revised scales of the office establishment of the Mess Inspector.

It would not be out of place to give a brief history of the Calcutta Mess Scheme which the University administers on behalf of the Government from funds placed at its disposal. When the Mess Scheme was transferred to the Calcutta University in the year, 1911, arrangement was made that the sum of Rs. 9000 would be paid by Government every year to meet the deficit on account of house rent. As this sum proved inadequate, the Government of Bengal sanctioned that a sum not exceeding Rs. 10,000 might be paid out of the Imperial grant for private colleges towards the Scheme to meet the extra deficit that might occur every year. This arrangement continued for three sessions till 1915-16. But on account of the war, the Imperial grant for private colleges was suspended; the University could not draw upon any other fund to meet the extra deficit and requested the Government to supplement the grant every year. The Government sanctioned the supplementary grant for the years 1914-15 and 1915-16. In the session 1916-17 and 17-18 the University managed to keep down the deficit below the fixed grant of Rs. 9,000 by raising the seat rent. But since the year 1918-19, owing to abnormal rise in house rent, the deficit is going up by leaps and bounds till it reached the sum of Rs. 10,744 at the end of the year 1921-22, as detailed in the statement "A". The seat rent has reached almost the breaking point and it is not advisable to enhance it any further.

Regarding the revised scales of the office establishment and contingent allotment of the Mess Inspector, I have to add nothing to what is stated in this office letter No. A 54, dated the 2nd August, 1922 detailing the circumstances under which the Syndicate sanctioned the appointment of a second Assistant and increment to the salary of the Inspector and his Assistant. The conveyance allowance of that officer was increased from Rs. 30 to Rs. 50 per month owing to increase in the number of Messes as also for increased area of inspection and for higher rates of hackney carriage fares. In this connection I would invite your attention to the remarks made by Mr. R. N. Gilchrist and Prof. J. R. Banerjee (appointed by Government to enquire and report on the working of the Calcutta Mess Scheme, 1914) recommending that the conveyance allowance of the Inspector should be raised to Rs. 70 per month as the allowance of Rs. 30 was insufficient. They also recommended the appointment of an Assistant at the rate of Rs. 50 per month and one more peon to accompany the Inspector in his tour (pp. 35 & 36, Chapter IV Expenses of management). The details of the revised grades of pay and appointment of Assistants are given in the statement marked "B"

RESOLVED—

47. Read a letter from Babu Nibaranchandra Mukherjee, an ex-teacher of the *Calcutta High school* (permanently recognised), making certain allegations regarding the school and its present state of affairs.

At their meeting held on the 25th November, 1920, the Syndicate, in view of the defects disclosed in the last inspection report on the school, resolved that if the improvements suggested in the said report, were not effected within six months and the steps taken for the purpose reported to the University, the Syndicate would proceed to consider whether the school would still continue to be recognised. In May, 1921, the Head Master of the school reported removal of the school to a separate premises (one of the defects pointed out in the inspection report was the highly unsatisfactory condition of the school building) which when placed before the Syndicate on 20th May, 1922, was ordered to be recorded. 48. Read a report from the University Inspector of Colleges on the action taken by the authorities of the *Jabagram Kasiwari High school* (unrecognised) in the district of Burdwan in the matter of opening a Matriculation class in anticipation of the sanction of the University.

It is stated that 6 students of the 2nd class were promoted to the Matriculation class in January, 1922. The Head Master wrote a letter to the Maharaja of Cossimbazar, who has made himself responsible for the finances of the school informing him that it was against the rules to open the Matriculation class before recognition had been obtained. The P. A. to the Maharaja informed the Head Master that steps were being taken to have the school recognised and that he was to consult the Secretary of the school. The Secretary, himself the Head Master of another High school (maintained by the Maharaja), wrote him a letter authorising him to open the Matriculation class, stating distinctly that the responsibility for the infringement of rule lay with him and not with the Head Master. The Head Master admits that the Matriculation class had been opened and that 6 students had been taught all through 1922 but he disclaims all responsibility.

A letter from the Secretary of the school, reporting opening of the Matriculation class in the school in anticipation of the sanction of the University and requesting early grant of recognition, having been received, the Syndicate at their meeting held on the 17th March, 1922, requested the University Inspector of Colleges to favour them with a report in the matter. The University Inspector now furnishes the requisite report.

Another letter explaining the circumstances under which the Matriculation class was opened in January, 1922, received from the Secretary and an application for permanent recognition of the school submitted by him, reporting fulfilment of the conditions insisted upon by the University were placed before the Syndicate on 15th September, 1922 when the 6 students of the Matriculation class were permitted to appear at the next Matriculation Examination as private students, and a reminder was ordered to be issued to the University Inspector of Colleges to expedite the report he had been requested to furnish.

No special order has been passed on the application for recognition of the school.

(2) As regards portion of the compound wall pulled down by the Trust Government will be prepared, on receipt of an estimate from the University, to consider the advisability of paying, if possible, for the construction of a new wall not exceeding Rs. 430 paid by the Trust as the value of the dismantled wall.

REPORT

ON

The Sanskrit College, Calcutta, for 1921-22.

(Inspected on the 1st and 2nd March, 1922).

The Sanskrit College has two departments :—

- (i) "Oriental" in which Sanskritic studies are carried on under the Tol system.
- (ii) "English" which is practically an Arts College teaching up to the B.A. standard. Our Report deals with this side only.

The "English" Arts College is affiliated in the following standards and subjects :—

B.A.—English (Pass), Vernacular Composition, Philosophy (Pass and Honours), Sanskrit (Pass and Honours) and History (Pass and Honours),

I.A.—English, Vernacular Composition, Sanskrit, History and Logic.

Students of this college are allowed to read Honours in History and Philosophy in the Presidency College. No extra fee has to be paid for this privilege.

The College fee is Rs. 6 a month with an admission fee of the same amount. Forty students, who must be sons of bona-fide Pandits, are allowed to read at the reduced fee of Rs. 2 only per month.

I.—Governing Body.

The Governing Body for 1921-22 is constituted as follows :—
Mahamahopadhyay Haraprasad Sastri, C I.E., M.A.,

President.

Pandit Ashutosh Sastri, M.A., *Vice-President and Secretary.*

W. C. Wordsworth, Esq., M.A.

Babu Shyamacharan Mookerjee, M.A.

„ Nilmoney Chakravarti, M.A.

Mahamahopadhyaya Pramathanath Tarkabhusan.

Babu Krishnadhan Banerjee, M.A., *Resigned.*

In the previous session the Governing Body was composed of four members of whom two were members of the staff the third was the Principal and the fourth the President. It seems that Government has added additional members to the Governing Body.

The Governing Body held seven meetings in session 1920-21 and three meetings in the session under review.

We find that the Council of Members of the Staff met from time to time in previous sessions to discuss questions relating to the time-table, syllabus of studies, scheme of tutorial work, etc. We regret to note that from June, 1920, up to the date of our inspection not a single meeting of the staff had been held. We hope that, as in other institutions, the Council of Teachers will meet regularly for disposal of the business referred to above.

II. Buildings: Accommodation.

The accommodation remains unchanged. The Western Hall has been partitioned so as to form two rooms for accommodating the Third and Fourth Year classes. Part of the Southern Hall is used as Professors' Sitting Room, the rest being used for accommodating the Oriental Department. We give below the dimensions of the rooms used for lecture work in the English Department in the session under review :—

First Year Class Room	... 25' 4" × 20' 9"
Second „ „ „	... 21' × 18' 9"
Third „ „ „	... 23' 2" × 19'
Fourth „ „ „	... 25' 5" × 21' 2"
History Class Room	... 14' 2" × 12' 9"
Common Room	... 21' 2" × 18' 10"

We give below certain remarks from the previous Report to which we desire to draw the attention of the authorities :—
 “ We found the furniture in bad condition and were told that for the last five years nothing had been granted for furniture. Some more tables and desks are wanted for students and also chairs for Professors. The Professors' waiting-room is not well furnished We inspected the outhouses measuring 199' 10" × 18'. They are in a very dilapidated and insanitary condition. There is no plinth and no arrangement for ventilation, We are of opinion that the outhouses should either be thoroughly repaired or demolished at once. We must further point out that there is no tiffin room for students or for Professors of the Sanskrit Department who are orthodox Hindus.”

III. Teaching Staff.

A.—The names and qualifications of the members of the Teaching Staff and the work done by each teacher during 1921 is given in Appendix I.

In this institution the system of teachers electing their own representative on the Governing Body was followed when Babu Muralydhar Banerjee officiated as Principal. When Pundit Ashutosh Sastri became Principal, he revived the system of nominating the representative of the staff thus depriving the teachers of the privilege which they had enjoyed during the incumbency of his predecessor. On enquiry from the heads of different Government Colleges under the jurisdiction of the Calcutta University it was found that of *twelve* Government Colleges there are only *four**, viz., (1) David Hare Training College, (2) Krishnagar College, (3) Bengal Engineering College, (4) Hughly College, in which members of the staff are nominated to the Governing Body.

The D. P. I., in his letter No. 6347G-4C-4G-19, dated the 17th December 1919, addressed to the Principal, Chittagong College, stated that "the members of the teaching staff of a Government College may elect their representative to be a Member of the Governing Body of the College." Continuing, he said that the name of the gentleman elected might be included in the annual nomination which the Principal is required to submit to the Office of the Director of Public Instruction for the approval of Government.

When in July 1920, the Principal, Sanskrit College submitted the name of a member of the Oriental Department who was to represent the English Department to the D. P. I. and asked that his appointment as member of the Governing Body might be sanctioned, the latter in his letter No. $\frac{5452G}{4C-2-G-20}$, dated the 16th September, 1920, objected to the appointment only because this would have the effect of leaving the teachers of the English Department unrepresented. "It is realised," he said, "that the orders of Government on the subject have conferred on College teachers, the right to elect their representative, but when this right is exercised in a manner open to obvious objection, as in the present case, Government reserve the power to overrule

* The D. P. I., Assam, has accepted the suggestion of the University that the staff of the Cotton College, Gauhati should elect their own representative, vide letter No. 587-7-C-1, 1922, dated the 26th January, 1922. The other two Colleges of Assam, viz., M. C., College, Sylhet and the Earle Law College, Gauhati have been enjoying this privilege for some time.

the election." But when two Professors of the English Department raised the question of the right of the staff to elect their representative on the Governing Body, the decision of the Department was communicated in the following terms:—
 "The principle of election has never been authoritatively introduced into the Sanskrit College. All that is necessary is that the staff should be represented and although election has been introduced in certain colleges (not in all) as an experiment there are no orders at present making election imperative rather than selection."

Remembering that the system of nomination is followed in only *four* out of *twelve* Government Colleges, as also the sympathetic spirit in which the D. P. I. wrote his letter No. $\frac{5452G}{4C-2-G-20}$, dated the 16th September, 1920, it may fairly be urged that the teachers of the Sanskrit College, like the teachers of a majority of other Government Colleges, should be allowed to elect their own representative to the Governing Body. Surely men of education might be expected to know as to who would best represent their views on the Governing Body. An attempt to adopt the system of selection by the Principal may be construed by adverse critics as a method to stifle fair criticism which ought to be welcome to the head of any institution who seeks the co-operation of his colleagues.

About the middle of August last, two Lecturers of the Sanskrit College, Pundit Rajendranath Vidyabhushan and Professor Dhireschandra Acharyya, complained against the Principal to the President and members of the Governing Body and forwarded copies of their complaints to the University. Among other things, both expressed their dissatisfaction at the Principal visiting the class rooms frequently, interrupting the lecture work and occasionally saying or doing things which the two gentlemen thought had the effect of lowering them in the eyes of their students. Copies of these complaints were sent to the Principal for his observations on them but as he was of opinion that the matter under reference should form the subject of representation to Government, we thought it our duty to respect his wishes in the matter.

Other members of the staff, *viz.*, Professors Syamacharan Mookerjee, Krishnadhan Banerjee and Dr. Mahendralal Sircar also appeared to feel that they were not being properly treated. The Principal told us that he had tried to introduce good discipline and good teaching and had offended some members of the staff. We have no desire to enter into details because we believe these are matters that the authorities of the college

should deal with and because we are further convinced that steps will be taken to allay the irritation among the teachers many of whom have been serving in the Sanskrit College for years together.

B—*Tutorial Work, Examination etc.*—Tutorial work is done in English only in all the four College classes. There are three batches in the First-year Class and two batches in the other three classes. The batches for the Intermediate Classes consist of 7 and for the Degree classes of 11 to 12 students each. Attendance in these classes is compulsory. All work that is done is corrected and valued, record being kept of the marks obtained. We were informed by the Principal that tutorial work in other subjects could not be attempted as special Sanskrit subjects are taught and therefore no time is left for work of any other description.

Periodical examinations are held in Philosophy, History and Sanskrit in the Degree classes and in History, Logic and Sanskrit in the Intermediate Classes. The following statement shows the number of Periodical Examinations held in the different subjects from July, 1921, to February, 1922 :—

	Philosophy.	History.	Sanskrit.	Lo
4th-year Class .	5	5	1	0
3rd-year „ .	3	4	2	0
2nd-year „ .	0	3	3	7
1st-year „ .	0	5	4	3

IV.—Numerical Strength and Subjects Taught.

On the 27th August, 1921, there were 77 students only on the rolls of the College as against 207 on the 31st July, 1920.

We noticed with regret the abnormal fall in the number of students. The Principal told us that many promising students of the Sanskrit Collegiate School did not join the Sanskrit College because there was no arrangement for the teaching of Science. We believe that no very useful purpose would be served by making arrangements for the teaching of Science in an institution which specialises in the teaching of Sanskrit specially when there are so many other colleges in Calcutta where boys can study Science. We, however, agree with the Principal in thinking that it might be desirable to get affiliation in I.A. and B.A. Mathematics.

The table in Appendix II shows the number of students as they were distributed in the different subjects and classes on the 27th August last.

The following statement shows the distribution of students according to their home districts :—

Calcutta	6

Jessore	4
Faridpore	11
Khulna	4
Hooghly	3

V. Results of University Examinations, 1921.

37 I.A. students were sent up of whom 30 passed—6 in the First, 18 in the Second and 6 in the Third Division. In B.A. 73 were sent up of whom 3 were absent so that 70 sat for the examination. Of these 3 got First Class and 2 Second Class Honours while 12 passed with and 35 without distinction. 5 appeared in Sanskrit Honours of whom 3 got First Class, 1 got distinction and 1 failed. 5 appeared in History Honours of whom 4 got Second Class and one passed in the Pass Course. 1 appeared in Political Economy Honours and got a Second Class.

VI. Library and Common Room.

On the 31st May, 1920, there were 18,057 books in the Library distributed as follows :—

English including Reference, History and Philo-	8536
sophy.	
Sanskrit and Bengali ...	5753
Sanskrit MSS ..	3768

In session 1920-'1, 116 volumes were purchased at a cost of Rs. 686.

The annual grant for the Library amounted to Rs. 900 up to 1919-20. During this period there was also a separate grant of Rs. 260 for newspapers and periodicals. Last year the grant was Rs. 1000 for both books and periodicals.

In session 1920-21, students took out 747 books for study at home,

There is no Reading Room attached to the Library. There is, however, a Research Room particulars of which were given in the last Inspection Report.

The following is a list of periodicals provided for the Common Room :—

Spectator	Strand.
Mind	Indian Review.
Cosmopolitan	Modern Review.
Hibbert Journal	Prabashi.
Nineteenth Century	Bharatvarsha.
Nature	India.
Colligian	Illustrated London Times.
Asian Review	Bharati.

VII. College Clubs.

We note with regret that as yet the authorities have not been able to start a Debating Club.

A sporting club was organised in February, 1919, of which the Principal is the President and the Librarian the Secretary. Boys play Football and Badminton. A playground situated near the Race Course was allotted to Sanskrit College students but it could not be used on account of its distance. The football ground inside the Presidency College compound was placed at the disposal of the Sanskrit College for one day in the week. Boys have to pay a compulsory games fee of eight annas per session. We do not know whether any fixed grant has been made for the purpose from the college funds.

VIII. Residence of students.

Of the 77 students on the rolls of the College, 8 lived in the attached mess, 25 with parents and 44 with guardians.

Formerly there were two attached messes but as the numbers have gone down, one of these has been temporarily abolished. This year only 8 out of 30 seats are occupied in the attached mess.

The Principal has promised that he will make arrangements to inspect the residence of students who live with their guardians.

IX. Finance.

The Return of Finance for the three years ending 31st March, 1921, is given in Appendix III.

X. Suggestions.

We give below some of the suggestions made by the Inspectors in their last Report to which we would like to draw the attention of the authorities :—

1. "We are of opinion that all the rooms should be provided with electric fans, and if possible, with electric lights.

2. "A Common Room, a Tiffin Room for students and one for Lecturers of the Sanskrit Department are urgently required.

3. "It is desirable that increased accommodation, specially for tutorial classes, should be provided.

4. "A special grant for furniture is badly needed."

To the above we would like to add the following :—

5. The Council of Members of the Teaching Staff should be re-organised and meetings should be held regularly.

6. We recommend that teachers be allowed to elect their own representatives to the Governing Body.

November 21st, 1922.

To

THE HON'BLE THE VICE-CHANCELLOR AND SYNDICATE
OF THE UNIVERSITY OF CALCUTTA.

GENTLEMEN,

I have the honour to state that I arrived in Calcutta on November 12th, after being absent with your kind permission for a fortnight in excess of seven months. Though I was able to devote fully five months to continuous work in England, I did not succeed in completing the final re-writing of Vol. III of my *Matrices and Determinoids*. There still remains the re-writing of two chapters and the appendices.

In order that you may see the present state of Vol. III, I enclose :

(1) a paper showing the headings of the chapters, and the chapters which are printed, ready for press and not ready for press :

(2) two sets of papers showing the headings of articles and (in some cases) the sub-articles in Part I and in the final manuscript of Part II.

It will be seen that there are only three unprinted chapters in Part I; but the reference in these cannot be filled up until the last two chapters of Part II are in their final forms.

Three important chapters which were originally included in Vol. III have been carried over to Vol. IV. The delay in completing Vol. III has been due to the interpolation before these three chapters of the new matter now forming Part II of the volume.

I shall retire from Government Service on April 15th next, and shall hope to proceed rapidly to the publication of Vol. III after that date. It is hoped that when the work is completed (on the basis of existing manuscript) by the addition of 2 or 3 volumes, it will serve as a much needed standard representation of the subject.

I propose to deliver a course of six lectures in December before my tenure of the Hardinge Professorship expires.

I desire to express my most sincere thanks to you for the honoured position you have allowed me to hold for five years, and for the facilities you have accorded me for prosecuting investigations concerning the most comprehensive calculus of mathematics.

I have the honours to be,

Gentlemen,

Your obedient servant,

C. E. Cullis

(Hardinge Professor, University of Calcutta).

The President stated that he had received the following letter from the Adjutant, and had requested the Heads of Colleges to take the necessary steps to enable such of the students of the respective institutions as were members of the Corps to go into Camp :—

CALCUTTA UNIVERSITY TRAINING CORPS,

Fort William, *the 8th November 1922.*

DEAR SIR ASUTOSH,

I have already informed you of the fact that the University Corps Annual Camp is to be held this year on the Maidan from 25th November, to 9th December, 1922.

In connection with this I consider it most important and indeed absolutely essential that the Principals of the various Colleges should not only sanction their students' attendance at Camp but should actively encourage it.

You have already very kindly allowed members to count any period spent in training as time spent in Colleges so that percentages will not suffer but a little assurance to the boys, such as I feel sure could be given to all, except the very backward that their studies are not likely to suffer in any way through their absence in camp while they themselves will certainly derive a real benefit from the same, would go far to setting at rest the anxieties of many.

The question of test examination also affects the students of Metropolitan, City and St. Xavier's Colleges but you have promised to arrange the dates where they clash with the Camp dates.

I am making every efforts to ensure a successful Camp and I am certain that a fortnight's healthy, outdoor exercise with plenty of good food will have an excellent effect on the students.

Some students, such as those of the Duff Hostel also inform me that they will have to pay messing charges to the Hostel while they are away in Camp. A remission of such charges, which you no doubt can easily arrange, will be a further incentive to the members to attend the Camp.

I hope you will lend me your support by urging on the Principals the points I have brought to your notice.

Yours sincerely,

Sd. C. L. Hyde,

Captain.

THE VICE-CHANCELLOR, CALCUTTA UNIVERSITY."

* RESOLVED FURTHER--

110. The Registrar reported that the following Memorandum had been sent to His Excellency the Chancellor:—

MEMORANDUM

The *Times Educational Supplement*, in its issue of the 14th October, 1922, published an article headed "A Bankrupt University," containing an attack on the administration of this University, based on the letter from the Government of Bengal to the University, dated the 23rd August, 1922. The *Bengalee*, in its issue of the 14th November, 1922, reprinted the article with the following introductory statement: "*We have been requested by the Publicity Officer of the Government of Bengal to reproduce the following inspired article from the Times Educational Supplement on the present financial position of the University of Calcutta.*"

In the course of the same day, the following requisition was received by the Vice-Chancellor :

"To

THE VICE-CHANCELLOR,

CALCUTTA UNIVERSITY.

Calcutta, the 14th November, 1922.

DEAR SIR,

We find that the *Bengalee* in its issue of this morning has reproduced an article on this University from the *Times Educational Supplement*, which contains an attack upon the administration of the University, based on the letter addressed to this University by the Government of Bengal on the 23rd August, 1922, and now under the consideration of the Senate. The *Bengalee* states that the article has been reprinted in its columns at the request of the Government of Bengal (Publicity Department).

The situation thus created is so grave that in our opinion the Senate should assemble without delay to enable it to consider the position and to take such action as may be necessary.

In these circumstances, we request you, under Section 3 of Chapter I of the Regulations, to convene a meeting of the Senate as early as practicable.

Yours faithfully,
Mahendranath Ray.
G. C. Bose.
A. Chaudhuri.
P. C. Ray.
Kamini K. Chanda.
J. Maitra.

Members of the Senate."

Section 3 of Chapter I of the Regulations mentioned in the requisition requires that the Vice-Chancellor *shall* convene a meeting of the Senate on the requisition of any six Fellows.

On receipt of the requisition, the Vice-Chancellor, in compliance with the Regulations, made the following order :

"Under Section 3, Chapter I, of the Regulations, I hereby convene a meeting of the Senate for the consideration of the above requisition, to be held at 4-30 P.M. on Saturday, the 18th November, 1922.

14th November, 1922.

ASUTOSH MOOKERJEE,
Vice-Chancellor."

The meeting was accordingly held on the 18th November, 1922. Sir Asutosh Chaudhuri, one of the signatories to the

requisition, had given the following notice of his intention to move a resolution at the meeting :

“ To

THE REGISTRAR,

Calcutta University.

Calcutta, the 14th November, 1922.

DEAR SIR,

I give notice that I shall move the following resolution at the meeting of the Senate to be convened pursuant to the requisition of to-day's date of which I am one of the signatories :

“ That the matter be brought to the notice of His Excellency the Chancellor with the request that a full enquiry be made as to how the Publicity Department of the Government of Bengal came to request the *Bengalee* to publish the article in the *Times Educational Supplement* relating to the financial condition of the Calcutta University.”

Yours truly,

A. CHAUDHURI,

Member of the Senate.”

At the meeting, Sir Asutosh Chaudhuri moved the resolution which he had notified.

Mr. Mannathanath Ray seconded the motion.

Rai Bahadur Dr. Chunilal Bose expressed the opinion that before any action was taken by the Senate, they should make sure that the allegation made by the *Bengalee* that it had been “ requested by the Publicity Officer of the Government of Bengal ” to reproduce the article was well-founded in fact.

Sir Nilratan Sircar at this stage stated that as a question had been raised as regards the genuineness of any communication from the Publicity Office to the Editor of the *Bengalee*, he felt himself under the necessity of placing before the Senate the letter which had been handed over to him by the Editor. He then read out the letter a copy of which is annexed herewith. When questioned as to how the letter had come into his possession, he stated that he had a responsible part in the management of the *Bengalee*, that the letter had been made over to him by the Editor, and that he had been authorised to place it before the Senate, if necessary.

The motion was subsequently amended by insertion of the word "office" for "department." The amended motion was put to the vote and carried in the following form, there being two dissentient votes:

"That the matter be brought to the notice of His Excellency the Chancellor with the request that a full enquiry be made as to how the Publicity Office of the Government of Bengal came to request the *Bengalee* to publish the article in the *Times Educational Supplement* relating to the financial condition of the Calcutta University."

The grounds on which the Senate consider that the action taken by the Publicity Office is open to grave objection may be briefly summarised as follows:

1. The question of the financial administration of the University raised in the report of the Accountant-General and the letter from the Government of Bengal is pending before the Senate and is under examination by a Committee. Pending the decision of the Senate, it is not proper that the Publicity Office, which is a department under the Government, should take steps to secure the circulation of an article in a newspaper, which proceeds on the basis of the Government letter.

2. The article in question does not state facts but expresses opinions. The Publicity Office should not concern itself with the circulation of opinions expressed in newspaper articles.

3. The Publicity Office, if it should at all concern itself in a matter of this description, should not circulate adverse opinions alone, ignoring opinions expressed in favour of the University.

" No. 2491 (Edn.)

GOVERNMENT OF BENGAL.

EDUCATION DEPARTMENT.

Education Branch.

FROM

S. W. GOODE, Esq., I.C.S.

Secretary to the Government of Bengal,

TO

THE REGISTRAR,

Calcutta University,

THE HON'BLE MR. P. C. MITTER, O.I.E.,

Minister in charge

Calcutta, the 7th December 1922.

SIR,

With reference to your letter No. Disc. 2177, dated the 15th September, 1922, and in continuation of this Department letter No. 1597, dated the 3rd August, 1922, I am directed to say that in the circumstances stated in your letter under reply, the Government of Bengal (Ministry of Education) sanction, under the provisions of section 25 (1) of the Indian University Act VIII of 1904 as amended by the Calcutta University Act of 1921, clause 3 of the draft regulations for the degree of the Bachelor of Commerce forwarded with your letter No. G-405, dated the 19th June, 1922.

I have the honour to be

SIR,

Your most obedient servant

J. N. ROY.

For Secretary to the Government of Bengal."

(Letter No. Misc. 2177 dated the 15th September, 1922, from the Registrar Calcutta University to the Secretary to the Government of Bengal, Education Department),

"I have the honour to acknowledge receipt of your letter No. 1597 Education conveying the sanction of the Government of Bengal under the provisions of Section 25 (1) of the Indian Universities Act, 1904 to the regulations for the degree of B. Com. and the amendments in the I.A. regulations. Your letter under reply conveys sanction to the B. Com. regulations with the exception of clause 3. I am directed by the Vice-Chancellor and Syndicate, to point out that under section 25 (1) of the Indian Universities Act, sanction cannot be granted with a modification, whether the modification be by way of omission, addition or alteration. This is the interpretation which has been uniformly placed upon that section since 1904, and also upon the corresponding section of the Act of Incorporation of 1857. It may further be pointed out that there has been some misapprehension as to the scope of clause 3. Clause 3 was not intended to confer any new power on the University authorities which are unlimited as is clear from section 19 of the Indian Universities Act. The object of clause 3 was to regulate the mode of exercise of the power possessed by the University authorities under section 19. It may also be explained that there is no intention on the part of the University authorities to embark upon undergraduate instruction specially if the undertaking involves new expenditure. At the same time there is no reason why the University teachers in the department of Economics and Commerce should not within the limit of the time at their disposal assist such students as may be anxious to qualify themselves for the B. Com. degree. The desirability of such a course, to the extent it may be feasible is obvious when the fact is borne in mind that even the Government of Bengal does not appear to be at present in a position to provide for instruction in the subjects of the B. Com. Examination in the Government Commercial School at Calcutta.

As regards the suggestions that subjects take precis writing and Commercial correspondence may be introduced at the Intermediate stage the Faculty of Arts have been consulted and they have expressed the opinion that it would be desirable to proceed cautiously and to watch the effect of the new regulations, for some later time."

ORDERED—

That the letter be recorded and that the regulations sanctioned be notified in the Gazette.

The Regulations sanctioned for the Degree of B. Com. are as follows :—

CHAPTER XXXIV (A)

BACHELOR OF COMMERCE.

1. The examination for the Degree of Bachelor of Commerce shall be held annually in Calcutta and such other places, as shall, from time to time, be appointed by the Syndicate, the approximate date to be notified in the Calendar.

3. A student not belonging to any affiliated College who has prosecuted a regular course of study under University Professors or University Lecturers, may, on the recommendations of the Syndicate by special order of the Senate, be admitted to the examination as a non-collegiate University student, anything in Chapter XVI of the Regulations to the contrary notwithstanding.

4. Read a letter from Babu Kshitischandra Mukherjee, President of a public meeting held at the Krishnagar Barwaritala on the 19th December, 1922, forwarding copy of a resolution passed at the meeting protesting against the inclusion of the "Selections from the Bible" in the list of books prescribed for the Intermediate and B.A. Examinations.

ORDERED—

To be recorded.

102. Read an endorsement from the Dean of the Faculty of Law, Dacca University, forwarding a joint application from a few candidates for the ensuing Law Examinations, praying that a centre may be created at Dacca for holding the said Examinations.

The Registrar, Dacca University, has agreed to make necessary arrangements for the conduct and supervision of the Examinations and to be the custodian of question papers on behalf of the Calcutta University.

RESOLVED—

That arrangements be made for holding the ensuing Examinations in Law at Dacca.

103. Read a letter from the Principal, Hindu Academy, Daulatpur, Khulna, applying for permission to hold the next B.A. Examination at Daulatpur on the conditions agreed upon in previous years.

RESOLVED—

That Daulatpur be appointed a centre for holding the B.A. Examination of this University for the year 1923.

104. Read the following Inspection Report on the Hindu Academy, Daulatpur, for 1922-23 :—

REPORT

ON

The Hindu Academy, Daulatpur, for 1922-23*(Inspected on the 16th August, 1922)*

This College is affiliated in the following standards and subjects:—

B.A. English (Pass), Vernacular Composition in Bengali, Sanskrit (Pass), Philosophy (Pass), History (Pass), and Mathematics (Pass).

I.A.—English, Vernacular Composition, Sanskrit, Mathematics, History, Logic, Physics, Chemistry and Botany.

I.Sc.—English, Vernacular, Composition, Mathematics, Physics, Chemistry and Botany.

The College fee is Rs 5/- per month for B.A. and I.Sc. students; I.A. students in "pure" Arts have to pay Rs 4/- per month but those who read any Science subject pay Re. 1/- per month extra as laboratory charges.

The authorities are now realising from every student a Building contribution of Re. 1 per month.

I. Governing Body

The Board of Trustees for general supervision and control remains unchanged but the College Council which manages all internal affairs has lost a member in the shape of the former Acharya Pandit Debnath Smrititirtha who has resigned. The gentleman who replaces him is the new Acharya Pandit Jaminikanta Tarkatirtha.

The College Council held four meetings in session 1921-22 and one meeting in the current session up to the date of our inspection.

The Teachers' Council held eight meetings in the last session. We were glad to see that proceedings of the meetings of both the bodies are recorded in books kept for the purpose.

II. Buildings:—Accommodation

The dimensions of the rooms used for teaching purposes have been given in previous Inspection Reports.

There are 21 teachers of whom 10 are provided with family quarters and 11 with bachelors' quarters. The medical officer in charge also gets family quarters. All quarters are rent-free.

III. Teaching Staff

The Teaching Staff remains unaltered with the exceptions noted below:—

(1) Pandit Debnath Smrititirtha the Acharya and Prof. of Sanskrit resigned on the 1st May, 1922. The authorities have appointed Pandit Jaminikanta Tarkatirtha to the vacancy.

(2) Babu Hemendrakisore Dutt, Prof. of Chemistry and Botany, resigned in July, 1921. Babu Manindrabinode Dutt who was appointed for one year on probation on Rs 80/- per month has been confirmed in his post on Rs 100/- from July, 1922.

(3) The post vacated by the resignation of Babu Parphullanath Ray, M.A., has been filled up by the appointment of Babu Aswinikumar Mookerjee (M.A. in English, Class I, 1921) on Rs 100/- per month.

We scrutinised the time-table and found that no Lecturer has to work more than eighteen periods per week.

It appears that the last general increment was given in July 1920. Only two Lecturers, *viz.*, Messrs. P.N. Roy and S.G. Mookerjee were excluded from this but they got their increment on completion of their two years' service.

We have to state that the proportion of teachers to students in some subjects is rather low. We, however, do not wish to press this point at present because we do not know whether in the next session the College will continue to have as many students as it has this session.

Tutorial Work and Examinations:—Tutorial work is done in the First and Third Year classes from January to April and in the Second Year class from July, to December. Students meet their tutors once a week. There were eleven batches in English five in Sanskrit, six in Logic and two in History in the First and Second Year classes. In the Third Year class tutorial work was attempted in English, Sanskrit and Philosophy only. There were four batches in English, three in Sanskrit and two in Philosophy. Owing to difficulties in the arrangement of the

time-table, some tutorial groups consisted of as many as 23 students.

We think it desirable that all tutorial work should be valued and the marks recorded in books kept specially for the purpose. We are further of opinion that no batch should consist of more than 10 to 12 students.

There are no exercises in any⁴ class. The First and the Third Year classes have the usual Annual Examination held in April while the Second and the Fourth year classes have the Preliminary Test which is held in September and the Final Test held in January. Students have to answer three-hour papers in all subjects. We were glad to note that marks received by students are properly recorded.

IV Numerical Strength

On the day of our inspection there were 599 students on the rolls of the College as against 518 on the 10th August, 1921. The following statement shows the numbers as they were distributed in the different courses and classes on the day of our inspection.

Class	Arts	Science	Total
First. year	113	164	277
Second. year	107	98	205
Third. year	64	...	64
Fourth. year	53	...	53
			<hr/> 599

The following statement shows the distribution of students according to their home districts:

Khulna	...	225
Jessore	...	143
Faridpore	...	98
Barisal	...	62
Other Districts		71
		<hr/> 599

It will be seen from the above that over 61% of the students are drawn from Jessore and Khulna. This shows what a great local need this institution is supplying.

Of the 599 students shown above, 553 are Hindus and 46 are Mahomedans. Out of the 553 Hindu students 85 belong to the so-called depressed classes.

V. Results of University Examinations

It appears that 104 students sat for the I.A. Examination of whom 76 passed—22 in the First, 39 in the Second and 15 in the Third Division.

61 students sat for the I.Sc. Examination of whom 50 passed—29 in the First, 16 in the Second and 3 in the Third Division—besides two who passed in Physics, Chemistry and Botany.

48 were sent up for the B.A. Examination of whom 39 passed—7 with and 32 without distinction.

Of the 28 who failed in I.A. 25 failed in English. Of the 11 who failed in I.Sc., 9 failed in English. All the 9 who failed in B.A. failed in English. This makes it quite clear that it is imperative to pay greater attention to tutorial work in English.

VI Science Department

This institution is affiliated to the I.A. and I.Sc. standards in Physics, Chemistry and Botany. The number of pupils studying Science in the different classes is as follows:—

Class	Subject		
	Chemistry	Physics	Botany
I.A. First. year	27
“ Second “	27
I.Sc. First. year	164	161	81
“ Second “	96	91	45
	<hr/>	<hr/>	<hr/>
	316	252	126

The staff in Chemistry consists of a Lecturer and two Demonstrators ; in Physics of a Lecturer and a Demonstrator and in Botany of a Lecturer. There is no fixed annual grant for the three Laboratories, the amounts spent from year to year depending on the actual needs of the different departments. The

following statement shows the amounts spent in session 1921-22:—

Subject	Apparatus	Contingencies
Physics	Rs. 3531/1/-	Rs. 471/5/-
Chemistry	„ 417/14/3	„ 509/6/3
Botany	„ 20/1/-	„ 14/5/6
	<hr/>	<hr/>
	Rs. 3969/0/3	Rs. 995/0/9

Practical work in all subjects is commenced in the First Year class from January and is continued all through the Second Year class up to December. All students do practical work twice a week for two periods, *i.e.*, one hour and a half in succession.

The I.Sc. classes are held in the afternoon from 12-30 to 4-15 p.m., practical work being done in the morning. I.A. students who take up Chemistry have lectures in the morning and practical work in the afternoon. As all Science students are residents in the attached hostels or live very close to the College, no difficulty is experienced even when they have to attend classes both morning and afternoon.

The inspectors in their previous reports suggested that the authorities should take steps to obtain affiliation up to the B.Sc. stage. We found that much of the necessary apparatus has already been procured from abroad and that the building plans are ready. The College has also about three lacs of bricks in hand. We learnt that the Secretary has applied to the University for a grant of Rs. 24,000 to meet part of the expense which will have to be incurred for the extension of the present Laboratory buildings. Application has also been made to the D.P.I., Bengal, for a grant to meet the increased recurring expenditure for the maintenance of the proposed B.Sc. classes. We hope that the applications will be granted.

VII. Library & Common room

The total number of books in the Library on the 31st May, 1922, was 7760.

There is no fixed annual grant for the Library but in session 1921-22, 348 books were purchased at a cost of Rs. 2343/10/3. It further appears that the College got 118 copies of books as present from gentlemen interested in the institution.

The approximate daily attendance in the Reading Room has been about 20. We were gratified to find that in the last session 2343 books were taken out for study at home by students.

The following is a list of periodicals provided for the Common Room:—

<i>Daily</i>	<i>Monthly</i>
Amrita Bazar Patrika	Indian Review
<i>Weekly</i>	Modern Review
Calcutta Gazette	Indian Antiquary
India Gazette	Prativa
Hitabadi	Bharatvarsa
Standard Bearer	Prabasi
<i>Fortnightly</i>	Ayurveda
Collegian	Udbodhan
	Utsab
	Tattvabodhini Patrika
	Sahitya
	Manasi-O-Marmavani
	Shikshak
	Calcutta Review
	Herald of the Star
	Basumati

It is regrettable that the authorities have not provided magazines like the *Strand*, *Wide World*, etc., for the Common Room. We would further like to see a magazine on athletics like Bernarr Macfadden's well-known *Physical Culture* or the *Badminton Magazine* provided for the students.

VIII. College Clubs

In the last session four meetings of the Students' Literary Association were held. On each occasion a member of the staff presided and the attendance, we were told, was quite fair.

There is an Athletic Club with the Principal as President and a member of the staff as Vice-President and Secretary. Football, Hockey, Cricket, Tennis, Badminton, Rowing and indigenous games like Hadudu are the sports popular with students. There is a big playing field in the centre of the College compound with smaller areas for minor games. There were Inter-Class Cricket matches as well as rowing competitions.

There is no covered gymnasium connected with the College but Indian Clubs, Dumb-bells, Parallel Bars, etc., are provided for the use of students. Students contribute Re. 1 per session

to the funds of the Athletic Club. There is, however, no annual fixed grant from the College funds for sports and games.

We would like to see physical exercise in some form made compulsory for every resident in the hostel, it being of course understood that those who are physically unfit would be excused after examination by the resident medical officer.

The College being a residential one affords ample opportunities for fostering collegiate life. The resident students get constant facilities for coming into direct personal contact with the teachers. The College union which is organised among the students for nursing the sick and helping the poor goes a great way towards the fostering of corporate life. The Poor Fund and the Brotherhood for nursing the sick continue doing good work.

IX. Residence of Students

Of the 599 students on the rolls of the College referred to in the fourth section of this Report, 319 live in the Collegiate Hindu Hostel (maximum accommodation 387), 16 in the Collegiate Mahomedan Hostel, 89 in private lodgings, 62 with parents and 113 with guardians.

Details of the different blocks with the arrangements for supervision and other information were given in the Report for 1920-21. The seat-rent and the establishment charges remain unaltered. The messing charges come up to about Rs. 10 per month.

We were informed that the Principal is about to make arrangements to inspect the residence of students said to be living with their guardians.

We fully agree with the opinion of the previous Inspectors which we quote below:—

“The Inspectors in their previous Inspection Report pointed out the desirability of increasing the allowances of the Hostel Superintendents. It is desirable that in view of the small salary drawn by the members of the staff, it should be increased as soon as the financial condition is better.”

X. Finance

The Return of Finance for the three years ending 31st March, 1922, is given in the Appendix.

XI. Suggestions

1. Steps should be taken without further delay to obtain affiliation up to the B.Sc. stage in Physics, Chemistry and Botany.

The study of Economics is becoming popular. We think it desirable that the institution should obtain affiliation in this subject also. The extensive area of land attached to the College building should afford ample facilities for the study of practical agricultural Economics.

2. The authorities of the College should contribute an amount equal to that realised from members of the College Provident Fund. The salary paid is admittedly low and this would be one of the means to make service in the Hindu Academy attractive to teachers.

3. A parapet should be put round the open verandah of the two storied "Government Hostel." If necessary, the authorities should move the P. W. D. to obtain the required sanction.

4. An allowance should be paid to the Acharyya Pundit Jamininath Tarkatirtha for the work he does in the College department.

5. The allowance paid to the Hostel Superintendents should be increased.

6. Tutorial batches should not, in our opinion, consist of more than 10 to 12 students.

7. Physical exercise in some form should be made compulsory for every resident of the Hostel unless it is prohibited under orders from the resident medical officer.

8. The College roads should be metalled.

ORDERED—

That a copy of the report be forwarded to the authorities of the College for information and necessary action.

105. Read the following Inspection Report on the Braja-mohan College, Barisal, for 1922-23 :—

REPORT

ON

Brojomahan College, Barisal for 1922-23.*(Inspected on the 31st August, 1922.)*

The College is affiliated in the following standards and subjects :—

B.A.—English (Pass and Honours), Vernacular Composition, Sanskrit (Pass), Persian (Pass), Arabic (Pass), Mathematics (Pass), History (Pass), and Philosophy (Pass and Honours).

I.A.—English, Vernacular Composition, Sanskrit, Persian, Arabic, Mathematics, History, Logic and Chemistry.

The College fee is Rs. 4 per month with an additional fee of Re. 1 for those who take up Chemistry. The admission fee is Rs. 4 only. Students have also to pay what is called the “Ordinary Contribution” of Rs. 2 per year which goes towards meeting cost of “extraordinary” repairs of the College buildings, the cost of ordinary repairs being met from the general income. From this session the authorities are levying the Building Contribution referred to in pages 13 to 16 of the Inspection report for sessions 1918-21.

I. Governing Body.

The Governing Body for the current session is composed of the following gentlemen :—

Mr. P. H. Waddell, M.A., I.C.S.

„ Chandmohan Chatterjee, B.L,
re-nominated.

Maulvi Mafizuddin Ambed, B.L.

Mr. Tarinikumar Gupta, L.M.S.
re-nominated.

„ Jagadish Mookerjee, B.A.

„ Sukumar Dutt, M.A., B.L.

} Nominated
by
Government.

} Elected by
Proprietors.

Mr. Saratchandra Guha, M.A., B.L. re-elected	}	Elected by Guardians.
„ Atulchandra Gupta, M.A., B.L., elected vice Babu Kaliprasanna Ghosh, B.A.		
Khan Bahadur Maulvi Hemayet Uddin Ahmed, B.A.	}	Elected by Moslem Guardians.
Mr. Nilratan Mookerjee, M.A.		
„ Kaliprasanna Ghosh, B.A., Offg. Principal & Secretary vice Mr. Nriyalal Mookerjee, M.A., on leave.		Elected by College Staff.

There were nine meetings of the Governing Body in session 1921-22, and four meetings in the current session up to the date of our Inspection.

The Teachers' Council met five times in the last session and only once in the course of the current session. We were glad to note that the teachers have started a Co-operative Credit Society from February, 1921. It seems to be doing very good work.

The Professors have made a representation for graded pay which we hope will have favourable consideration from the authorities of the institution.

II. Buildings : Accommodation.

The dimensions of the rooms used for teaching purposes have been given more than once in previous Inspection Reports and are not therefore repeated here. Rent-free quarters are provided in the College compound for the four Superintendents of whom one is given "bachelor's" quarters and the other three "married" quarters.

Since the last inspection, concrete drains round the College buildings have been completed at a cost of about Rs. 1800. It seems that special permission was obtained to divert the grant for laboratories for the improvement of the Hindu Hostel and for the construction of the drains referred to above.

The authorities have also reconstructed the Moslem Hostel providing the building with pucca plinth, pucca walls and corrugated iron roof. The cost which has amounted to a little over Rs. 6000 has been partly met from general income transferred to the Building Fund by a resolution of the Governing Body.

We examined the accounts of the Building Fund and found that in April, 1922, the total amount standing to its credit was Rs. 5268-5-7. On the 4th March, 1922, the Governing Body transferred Rs. 5000 from the General Fund to the Building Fund. Without having any desire to criticise the action of the Governing Body we must confess that we do not see the reason for transferring such a large sum from the General Fund to the Building Fund when almost the whole of the cost for reconstructing the Mahomedan Hostel could have been met from the Building Fund. To us it seems better that capital expenditure such as this should be met from grants, subscriptions, and the money raised from students as Building Contribution. The current income of the Institution ought not to be diverted from legitimate channels such as library grants, laboratory contingencies, the giving of adequate salaries to teachers and placing them on graded pay and so forth.

III. Teaching Staff.

A—The names and qualifications of members of the Teaching Staff are given in Appendix I.

Babu Kaliprasanna Ghosh is officiating as Principal. The authorities have advertised for a gentleman of experience to fill up the vacancy created by the resignation of the late Principal Babu Nrityalal Mookerjee. It seems that some applications have been received. It is hoped that the appointment will be made in the near future.

Babu Kaliprasanna Ghosh is officiating as Principal from November, 1921, for which he has been drawing an allowance of Rs. 75 per month. Babu Chintabaran Ray has been officiating as Vice-Principal from November, 1921. The authorities have given him an allowance of Rs. 25 per month from April, 1922; that is to say they have not paid him anything for the five months' work he put in from November, 1921, to March, 1922. We cannot say that we can regard this as quite fair.

Since the last inspection, Babu Sailendrakumar Chaudhuri has been given an increment of Rs. 20 while Babus Hemantakumar Bose and Bhabataran Chakravarti have each received increments of Rs. 15 per month. We further note that the appointment of Babu Hemchandra Ghosh has been made a permanent one and that his salary has been increased from Rs. 80 to Rs. 100 per month.

Our enquiries elicited the fact that Babu Saurindrakumar Chadhuri had drawn Rs. 125 per month in 1915, in 1917 he got

an increment of Rs. 25 in 1920 an increment of Rs. 30 and in the current session an increment of Rs. 20. Babu Hemantakumar Bose drew Rs. 175 in 1914, in January, 1918, he got an increment of Rs. 20 and in January, 1922, another increment of Rs. 15. Babu Bhabataran Chakravarti drew Rs. 125 in 1914, he got an increment of Rs. 15 in 1918, and another increment of Rs. 15 in 1922. Maulvi Abdus Sovan drew Rs. 80 in 1912 he got an increment of Rs. 20 in 1916, another increment of Rs. 10 in 1920 and an increment of Rs. 15 in 1922.

In this connection we pointed out to the Offg. Principal the remark made by the Inspectors in their report for 1918-21 in which it was stated that "as no member of the Staff is on graded pay the result is that increments are given at irregular intervals." He admitted that there was no clearly laid down principle in fixing the pay and that the "staff suffered somewhat for four or five years as their salaries could not be raised adequately during that period." It was further stated that an attempt was being made to adopt a fixed grade. We earnestly hope that the matter will be taken seriously in hand and the position of the teachers made more secure without further avoidable delay.

Tutorial work and Examinations—Tutorial work is done in English, Philosophy and History in the Fourth year and in English, Logic and History, in the Second Year classes. Students generally meet their tutors once a week. Each batch ordinarily consists of 15 to 20 students. We do not know how the tutors manage to give individual help to 15 to 20 students in a period consisting of 50 minutes only. An examination of the records showed that attendance is poor in the Fourth Year but is good in the Second Year tutorial classes. We were told that all mistakes are corrected and discussed but marks are not allotted for tutorial work. Attendance is not compulsory. We are of opinion that no tutorial batch should consist of more than 10 students. Marks should be allotted for the work done and attendance should be made compulsory. It also seems desirable that the tutorial record of students should be taken into account in sending them up to the different University Examinations.

The First and Third year classes have a Periodical Examination which is held in February and the Annual which is held in April while the Second and the Fourth Year classes have two Periodical Examinations held before and after the Puja Vacation besides the Test Examination which is held in January.

Inadequacy of Staff—In the last session there were 651 students and in the current session about 814 students. All these are students of English and a majority of them students of Sanskrit, Mathematics and Logic or Philosophy. We do not yet know as to whether the College will continue to teach such large numbers. It is possible that the high figures are caused by the fact that many students who kept away from College last session have resumed their studies and that in the next session there will be an appreciable drop in the numerical strength. We therefore refrain for the present to press for the strengthening of the staff in English, Sanskrit, Mathematics, and Logic and Philosophy.

IV. Numerical Strength.

On the day of our inspection there were 814 students on the rolls of the College as against 651 students on the 16th January last. The following statement shows the numbers as they were distributed in the different courses and classes on the day of our inspection :—

I.A. First Year Section A	152
" " " " B	144
" Second " " A	152
" " " " B	106
B.A. Third Year	114
" Fourth "	146
			<hr/>
			814

The following statement shows the distribution of students according to their home districts :—

Backergunj	613
Faridpore	81
Dacca	46
Noakhali	42
Other Districts	22
			<hr/>
			814

It will be seen from the above that over 71.7 per cent. of the students are drawn from the district of Backergunj. This shows what a great local need this institution is supplying. In this connection it should be pointed out that the Barisal public has not done its duty towards the College which has served and is still serving the district in which it is located.

Of the 814 students referred to above 624 are Hindus, 188 Mahomedans and 2 Indian Christians.

V. Results of University Examinations, 1922.

155 students appeared in the I.A. Examination of whom 123 passed—49 in the First Division, 63 in the Second Division and 11 in the Third Division. Of these two secured senior scholarships.

71 sat for the B.A. Examination of whom 59 passed—6 with and 53 without distinction.

8 appeared for B.A. Honours in English and Philosophy of whom 3 secured Second Class Honours in Philosophy, and 1 Second Class Honours in English. Another B.A. English Honours student passed in the Pass Course. The others failed.

VI. Science Department.

The College is affiliated in Chemistry to the I.A. standard.

There is no fixed grant for the Laboratory. It varies from year to year. In the last session Rs. 1500 was budgetted for apparatus and contingencies out of which Rs. 303-10 was spent but we learnt that in the course of the financial year ending 31st March, 1922, chemicals to the value of Rs. 3,046-6 were purchased.

The staff consists of a Professor and two Demonstrators. Classes both theoretical and practical are held in a separate block. The dimensions of the rooms used by this department were given in the Report for 1918-21 and are not therefore repeated here. This year there are 134 students of Chemistry in the Second-year class who have been divided into four batches of about 40 each. Each batch works for two consecutive periods of 50 minutes each twice a week.

VII. Library and Common Room.

The total number of books in the Library on the 31st May, 1921, was 2591. There is no fixed annual grant, but Rs. 2,000 was budgetted for the purchase of books in session 1921-22. We learnt that between April and October, 1922, 576 books were purchased at a cost of Rs. 2,702-14-3. In the last session boys took out 1227 books for study at home. The approximate daily attendance in the Library is about 34.

We were sorry to note that the authorities have not yet succeeded in procuring the books of reference recommened in page 5 of the Report for 1921-22.

The system of Library Deposit has been abolished but those students who take books home during the Summer Vacation and the Durga Puja holidays have to deposit Rs. 2 only for each volume taken out.

The Common Room is well lighted and well ventilated. Students have not to pay any Common Room fee. The following is a list of periodicals provided for the Common Room :—

Windsor Magazine	Manasi-o-Marmabani
Strand Magazine	Mind
Wide World Magazine	Calcutta Gazette
Review of Reviews	Dacca Review
Indian Review	Calcutta Review

We should like to see a magazine on athletics like the *Badminton Magazine* ordered for the Common Room.

VIII. College Clubs.

The Debating Society held three meetings in the last session.

• There is a College Athletic Club. Students play Football, Cricket, Hockey, etc. There is a Football ground measuring 100 yds. x 50 yds. and a Tennis Court in the College grounds. A large number of friendly matches were played.

There is no fixed grant from College funds for athletics. It varies from year to year. This session the grant is Rs. 550. Students pay 4as. per year. We were sorry to note that the Football ground is far from satisfactory. It requires levelling very badly. We recommend that the work be taken in hand immediately.

Physical exercise is not compulsory but some 60 students attend the gymnastic classes held in the open air Gymnasium in

charge of a competent Gymnastic Teacher Babu Hiralal De who draws Rs. 30 per month. The apparatus provided consists of two pairs of parallel bars, one horizontal bar, etc.

We recommend that physical exercise be made compulsory in the case of the residents of the Hindu and Mahomedan Hostels. It is further desirable that the College should provide Dumb-bells, Indian Clubs, etc., in the Hostels so that students so disposed might take physical exercise in the morning and go out for long walks in the afternoon.

Details regarding the Friendly Union, the Little Brothers of the Poor, etc., have been given in previous Inspection Reports and are not repeated here.

There is a quarterly called the Brojomohan College Magazine edited by the Offg. Vice-Principal Babu Chintaharan Ray. Articles are contributed by both Lecturers and students. All students have to pay a magazine fee of Re. 1 per session. Up to the present the savings made under this head have amounted to Rs. 1614. It further appears that in the last session students contributed Rs. 698 out of which only Rs. 339-1-6 was spent. As no Common Room fees are levied, we suggest that either the magazine fee be reduced or that the savings be utilised to pay for really good papers for the Common Room.

IX. Residence of Students.

The Principal told us that out of the 814 students referred to above, 92 lived in the attached Hindu Hostel, 71 in the attached Mahomedan Hostel, 93 in attached messes and 628 with guardians.

We are afraid that the sanitary arrangements are not quite adequate. It would be undoubtedly an improvement if a four-seated latrine is provided for each of the two hostels, Hindu and Mahomedan.

The Offg. Principal has promised that steps will be taken to inspect the residences of students before the Christmas Vacation.

Babu Chintaharan Ray, the Resident Superintendent, of the Hindu Hostel, gets Rs. 30 per month and free family quarters. The Assistant Superintendent Babu Taranikanta Sen gets free bachelor's quarters and Rs. 20 per month. We learnt that the Assistant Superintendent has been serving in the College for over 10 years. If possible, his allowance should be increased as a recognition of his long and faithful service. Free family quarters are given to both the Resident Superintendent and the Assistant Resident Superintendent of the Mahomedan Hostel. The former gets Rs. 30 and the latter Rs. 20 per month.

X. Finance.

The Return of Finance for three years ending 31st March, 1922, is given in Appendix II.

XI. General Remarks.

(a) *Secretaryship to the College Council*—In last Report the Inspectors pointed out that it was desirable that the Principal should be the *ex-officio* Secretary to the Governing Body. The question does not rise this year because the Vice-Principal is officiating as the Principal.

(b) *Provident Fund*—We are glad to find that the authorities have considered the suggestion of the Inspectors regarding modifications of the Provident Fund rules. The Governing Body has resolved that after 10 years' approved service a contributor will be granted the whole contribution made by the College with interest up to the date of his ceasing to serve. Five Years' service will entitle him to half the contribution of the College. From 6 to 10 years the contributor will get an amount proportionate to the years of his complete service. Under present rules every employee contributes $6\frac{1}{4}\%$ while the College contributed $3\frac{1}{8}\%$. It would be an improvement if the amount contributed by the College equals the amount contributed by the employee.

XII. Suggestions.

1. The Principal should be *ex-officio* Secretary to the Governing Body.

2. The rules of the Provident Fund should be altered in the manner suggested.

3. All members of the Staff should be placed on graded pay and the salary in a majority of cases increased.

RUMLEIGH,

BERE ALSTON, R. S. O.

DEVON.

MY DEAR MAHARAJ KUMAR,

On receiving from Mr. Frampton an intimation that my bust was ready for inspection, I proceeded to London and invited Sir Stewart Bayley Sir Alfred Lethbridge and others to look at it. The result, I am glad to say, was entirely satisfactory. The likeness was pronounced extremely good, and the marble in which the bust is executed is an exceedingly fine piece of stone. I hope it will give equal satisfaction to these many friends of mine in India who have contributed towards the result.

Your Agents, Messrs. R. T. Cooper and Co., have been very attentive in the matter. At Mr. Frampton's suggestion, they employed the packer whom he usually employs, and who has had much experience in this sort of work, so that there is every guarantee that no damage will accrue to the bust in transit. The steamer conveying it is to leave London to-morrow, 18th November, and should arrive in Calcutta about the 20th December. Messrs. Cooper and Co. will doubtless apprise you independently of its despatch.

With renewed thanks to you for all the trouble you have taken in the matter.

Believe me, my dear Maharaj Kumar,

Your sincerely,

A. CROFT

University College of Science

FROM

PROFESSOR C. V. RAMAN, M A , D.Sc.,

PALIT PROFESSOR OF PHYSICS,

92, Upper Circular Road

TO

THE REGISTRAR, CALCUTTA UNIVERSITY.

Dated, Calcutta, the 19th December, 1922.

Dear Sir,

It will be within the recollection of the University Authorities that I was on special duty in connection with the Enquiry on the Indian Institute of Science from the 10th November, 1921 to the 21st December, 1921. For this period I received in January last from the Director of the Institute the sum of Rs. 2,100 being the honorarium for 42 days at 50 per diem. In accordance with the resolution of the Senate, this amount was retained by me to be utilized for the expenses of my research work in the Palit Laboratory of Physics. I enclose herewith a statement of expenditure supported by vouchers totalling up to Rs. 1682-7-9. The balance of the amount Rs. 417-8-3. I am arranging to hand over to the University authorities to be utilized in arrangements for printing research papers from the Palit Laboratory of Physics according to a plan on which I am addressing you separately.

Kindly put this before the Governing Body of the Palit Endowment on Friday.

I have &c.,

C V RAMAN,

Palit Professor of Physics.

RESOLVED—

Read the following letter from Prof. C. V. Raman.—

‘University College of Science,

FROM

PROFESSOR C. V. RAMAN, M.A., D.Sc.,

PALIT PROFESSOR OF PHYSICS,

92, Upper Circular Road.

TO

THE REGISTRAR, CALCUTTA UNIVERSITY.

Dated, Calcutta, the 19th December, 1922.

DEAR SIR,

I have the honour to report that Babu Sashibhushan Mali, M.Sc., who was appointed as assistant to the Palit Professor of Physics on a salary of Rs. 100-25-200 for 3 years from the 14th March, 1921, obtained an appointment in the University of Dacca and tendered his resignation of his post to me with effect from 1st September, 1922, and this was accepted by me, as I felt that his retention here would not be in the interests of this University. I am now addressing you regarding the arrangements to be made in his place. Mr. Mali at the time of his resignation was in receipt of a salary of Rs. 125 per month and provision was made in the Budget accordingly. I find that instead of an assistant on a salary of 125-200, it would be more useful to me and also less expensive to the University to have instead one Laboratory Assistant on Rs. 75 per month and one electrician and mechanic, whose duty it would be to help me in my work in the Palit Laboratory, on a salary of Rs. 50 per month. I request the sanction of the Governing Body to these appointments with effect from 1st January, 1923. For the post of Laboratory Assistant, I shall arrange to select a suitable candidate who is an M.A. or M.Sc. of the Calcutta University in Physics and appoint him to the post.

The sum of Rs. 500 being Mr. Mali's salary from the months of September to December, 1922, remains unexpended in the budget. In connection with the investigations, I have now in hand, I require to set up a battery of some 300 small lead accumulators and propose to have them made under my supervision. To meet the expenses of the construction I would ask to be permitted to utilize the unexpended amount remaining in the budget on account of Mr. Mali's salary.

Kindly put this before the Governing Body of the Palit Endowment on Friday.

I have &c.,

Sd. C. V. RAMAN,

Palit Professor of Physics.
